1. COMPANY AND PRODUCT IDENTIFICATION

DUNCAN ENTERPRISES
5673 East Shields Avenue
Fresno, CA 93727
559-291-4444
559-291-9444 (Fax)

EMERGENCY TELEPHONE NUMBERS

Health Emergency: 559-291-4444 7:00 am – 3:30 pm Pacific Standard Time
Spill and Off-Hour Health Emergencies: 800-424-9300 703-527-3887 U.S. and Canada Outside U.S. and Canada (Collect)

Product Name: DUNCAN SS331 & SS331C CLEAR GLOSS, SS332 & SS332C CLEAR MATTE, SS333 TRANSLUCENT PEARL, SS334 & SS334C PORCELAIN SEALER, SS339 & SS339C SUPER MATTE

Product Category: Solvent - Based Aerosol Spray Sealers

*This chemical is subject to the reporting requirements of SARA Title III Section 313

3. HAZARDS IDENTIFICATION

HMIS Hazard Ratings for Product

Health: 1* 0 = Minimal
Flammability: 4 1 = Slight
Reactivity: 0 2 = Moderate
Personal Protection: See Section 8

* = Chronic Effects
3. HAZARDS IDENTIFICATION (Continued)

NFPA Hazard Ratings for Product

Health:  1  0 = Minimal
Flammability:  4  1 = Slight
Reactivity:  0  2 = Moderate
Other:  --  3 = Serious
        4 = Severe

Routes of Exposure
Exposure may be by inhalation and / or skin or eye contact, depending on conditions of use. To minimize exposure, follow recommendations for proper use, ventilation, and personal protective equipment.

Effects of Overexposure
Irritation of eyes, skin, and upper respiratory system. May cause nervous system depression. Extreme overexposure may result in unconsciousness and possibly death.

4. FIRST AID MEASURES

Eye contact:  Flush with water at least 15 minutes. Holding eyelids open. Get medical attention.
Skin contact:  Wash with soap and water. Wash clothing before re-use.
Inhalation:   Remove individual to fresh air. If breathing is difficult, administer oxygen. If breathing is stopped, give CPR and seek medical help.
Ingestion:   Do not induce vomiting (aspiration of material into lungs can cause chemical pneumonitis, which can be fatal.) Get medical attention.

5. FIRE FIGHTING MEASURES

Flash Point:  0° F (-18° C) Tag Closed Cup; Propellant = -100° F
Flammable Limits:  LEL 1.0UEL N/A
Extinguishing Media:  Alcohol Foam, CO2, Dry Chemical

Special Fire Fighting Procedures
Water spray may be ineffective. Water may be used to cool closed containers. If water is used, fog nozzles are preferable. Use self-contained breathing apparatus.

Unusual Fire And Explosion Hazards
Closed containers may explode and/or autoignite when exposed to extreme heat. Vapors are heavier than air and may travel along the ground or may be moved by ventilation. Remove all sources of ignition.

6. ACCIDENTAL RELEASE MEASURES

Steps to be Taken in Case Material is Released or Spilled
Remove all sources of ignition. Ventilate and remove with inert absorbent.

7. HANDLING AND STORAGE

Steps To Be Taken In Case Material Is Released Or Spilled
Eliminate all ignition sources, ventilate area, absorb liquid on absorbent material and transfer to a closed closed container.

Precautions To Be Taken In Handling And Storing
Do not store in areas above 120° F, or in direct sunlight, or near heat or open flames. Do not puncture or incinerate.
7. HANDLING AND STORAGE (Continued)

Other Precautions
Contents under pressure. Do not puncture, incinerate, or expose to temperature above 120°F. Heat from sunlight, radiators, stoves, hot water, and other heat sources could cause container to burst. Do not take internally. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal. Keep out of reach of children.

8. EXPOSURE CONTROL AND PERSONAL PROTECTION

Respiratory Protection
If spraying, do not inhale mist. Use respirator that is NIOSH/MSHA TC23C or equivalent. For organic vapors if TLV's are exceeded.

Ventilation
Local Exhaust: Recommended
Mechanical (general ventilation): Recommended when spraying
Special: Use respirator when spraying

Protective Gloves:
Chemical resistant (neoprene)

Eye Protection:
Safety glasses

Other Protective Clothing Or Equipment
Solvent-resistant boots, apron, headgear and/or face shield should be worn where splashing is possible.

Work/Hygienic Practices
Wear protective clothing that is removed before eating, drinking, smoking, or leaving work. Wash thoroughly, immediately after spraying. Good hygiene practices should be followed.

11. TOXICOLOGICAL INFORMATION

Routes Of Entry
Inhalation: yes  Skin: yes  Ingestion: no  Eyes: yes

Acute (short-term) Health Hazards
Inhalation: Excessive inhalation of vapors can cause nasal and respiratory irritation, dizziness, weakness, fatigue, nausea, headache, possible unconsciousness and even asphyxiation. Methylene chloride has caused loss of consciousness and death as low as 10,000ppm and causes numbness in arms and legs plus rapid heartbeat above 7,000 ppm.
Eye Contact: Can cause severe irritation, redness, tearing, blurred vision. Contact lenses should not be worn.
Ingestion: Can cause gastrointestinal irritation, nausea, vomiting, diarrhea.
Skin Contact: Methylene chloride is painful and irritating if confined to skin by gloves, clothing, etc.

Chronic (long-term) Health Hazards
None known for product(s) in Section 1. Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage, severe overexposure in laboratory animals has also caused liver abnormalities and damage to kidneys, lungs, and spleen. Deliberately concentrating and inhaling the contents may be harmful or fatal.

Carcinogenicity NTP: yes  IARC Monographs: yes
OSHA Regulated? no

12. ECOLOGICAL INFORMATION

No data available

13. DISPOSAL CONSIDERATIONS

Waste Disposal Method
Waste from this product may be hazardous as defined under the Resource Conservation and Recovery Act (RCRA) 40 CFR 261. Waste must be tested for ignitability to determine the applicable EPA hazardous waste numbers. Do not incinerate. Depressurize container. Dispose of in accordance with Federal, State, and Local regulations regarding pollution.

14. TRANSPORT INFORMATION

U.S. Department of Transportation Information
DOT Shipping Name: Consumer Commodity ORM-D
DOT Hazard Class: Paint 149980 Sub. 2
U.N. Number: 1950
15. REGULATORY INFORMATION

California Proposition 65
WARNING: This product contains chemicals known to the State of California to cause cancer, birth defects or other reproductive harm.

TSCA Certification
All chemicals in this product are listed, or are exempt from listing, on the TSCA inventory.

CAUTION Products bearing the Caution Label are certified to be properly labeled in a program of toxicological evaluation by a nationally recognized toxicologist. The products are certified by the toxicologist to be labeled in accordance with the chronic hazard labeling standard ASTM D-4236.
