

Using Sheepdog Fiberclay to create

Pinch Pot Monsters!

This is a super easy fast thing to do with your boring pinch pot.

Take a half pound of clay and roll it in your hands to make a nice round ball. Holding the ball in your left hand put your right thumb into the middle of the ball push it almost all the way to the bottom. Then, with a pinching motion rotate the ball in your left hand as you squeeze the clay walls thinner and thinner. When you have a nice pinch pot made, then drop it onto the table top to flatten one side of it!

Then add teeth, eyeballs, tongue, hands, and feet. Be sure to slip and score!

When you are happy with your creation allow to dry. At this point you can either fire your sculpture and glaze it, or painted with acrylic paints using Sheepdog fiber clay you have the choice.
